

## Rebates Save Energy and Money.

Get rebates on select natural gas appliances.<sup>1</sup>

Appliance	Required Minimum Efficiency	Rebate Amount
<b>Space Heating</b>		
Hot Air Furnace	95% AFUE <sup>2</sup>	\$500
Hot Air Furnace w/ ECM <sup>3</sup>	95% AFUE	\$525
Hot Water Boiler	90% AFUE	\$600
Steam Boiler	82% AFUE	\$100
Furnace Tune-Up Service <sup>4</sup>	N/A	\$60
Boiler Tune-Up Service <sup>4</sup>	N/A	\$70
<b>Water Heating</b>		
Storage Tank Water Heater (55 Gallons or Less)	0.64 UEF <sup>5</sup> or 0.67 EF <sup>6</sup>	\$75
Storage Tank Water Heater (55 Gallons or Less)	0.80 UEF	\$250
Storage Tank Water Heater (More Than 55 Gallons)	0.78 UEF or 0.77 EF	\$150
Tankless Water Heater	0.87 UEF or 0.90 EF	\$325
<b>Other Gas Appliances</b>		
Clothes Dryer	ENERGY STAR <sup>®</sup> Rated	\$50
Pool Heater	84% Thermal Efficiency	\$40
Pool Heater	86% Thermal Efficiency	\$80
Pool Heater	90% Thermal Efficiency	\$120
Pool Heater	95% Thermal Efficiency	\$160
<b>Controls</b>		
Wi-Fi Thermostat	N/A	\$125

<sup>1</sup>Installed between January 1 and December 31, 2020.

<sup>2</sup>Annual Fuel Utilization Efficiency

<sup>3</sup>Electronically Commutated Motor

<sup>4</sup>One tune-up service per furnace or boiler per year.

<sup>5</sup>Uniform Energy Factor

<sup>6</sup>Energy Factor

**Residential Customers:** Rebate offers listed are available for qualifying equipment installed between January 1, 2020, and December 31, 2020. All appliances must be installed by a contractor, including thermostats. The only exception to this is an ENERGY STAR<sup>®</sup>-labeled gas clothes dryer installation. Contractors must be able to supply one of the following for any rebate application to be considered complete: Federal ID number, a Certificate of Insurance or a Business Certificate showing their company's name and address. Terms and conditions apply. To learn more about what equipment qualifies, visit [NationalFuelForThought.com](http://NationalFuelForThought.com).

## Smell gas? Leave fast! Then call 1-800-444-3130

If you smell rotten eggs, it could be a natural gas leak. Leave the premises immediately and contact National Fuel from a different location.

For gas emergencies call 1-800-444-3130 24 hours a day, 7 days a week.

If you have a question, problem or request, please call us Monday through Friday, 7 a.m. to 6 p.m.

Buffalo, NY area: 1-716-686-6123

All other areas: 1-800-365-3234

# A Guide to Saving Money and Energy with the Conservation Incentive Program

For Residential Customers

**National Fuel**<sup>®</sup>

## The Conservation Incentive Program for Residential Customers

Thinking about a new natural gas appliance? Choose high efficiency and save.

The **National Fuel Conservation Incentive Rebate Program** offers residential customers in the Western New York service area several money-saving rebates for installing specified appliances with new, energy-efficient models. By combining rebates with projected annual savings for using more energy-efficient equipment, new, high-efficiency appliances can quickly pay for themselves.

### So why is National Fuel helping you use less natural gas?

A lot of people believe that National Fuel controls the cost of natural gas and that higher natural gas prices equal more revenue for the utility company. The truth is that utilities have no control over the market price of natural gas. The price you pay for natural gas is set in the energy marketplace, where forces of supply and demand drive value. By law, we pass those costs to customers without mark-up.

With the **Conservation Incentive Rebate Program**, National Fuel is providing customers with ways to use less natural gas, helping to bring balance back to the marketplace—and lowering the price we all pay for the energy we use.

### By using natural gas wisely, you could help protect the environment.

Natural gas is the cleanest burning fossil fuel available. According to the U.S. Environmental Protection Agency, natural gas also produces a significantly smaller amount of greenhouse gases compared to other fossil fuels used in the production of electricity. By conserving natural gas, you not only help your pocketbook—you help reduce emissions. And that makes the air cleaner for everyone. It's something that will help your children, and generations to come.

The **National Fuel Conservation Incentive Rebate Program** includes a number of ways for you to save through energy efficiency, including initiatives specifically designed for non-residential natural gas use, as well as for lower-income households. For complete details, visit **NationalFuelForThought.com**. If you've submitted a rebate application and have questions, call (toll free) **1-877-285-7824**.

## Choose a high-efficiency product for your home now. Enjoy energy savings for years to come.

An example of how you can make high efficiency more affordable:

New 95% High-Efficiency Furnace	<b>\$3,500</b>
Standard 80% Efficiency Furnace	<b>\$2,500</b>
<b>Cost Difference for Higher-Efficiency Model</b>	<b>\$1,000</b>
One-Time Rebate	<b>\$500</b>
Cost Difference after Rebate	<b>\$500</b>
Annual Operating Cost Savings	<b>\$113/year*</b>
Simple Payback on Cost for High-Efficiency Model	<b>4.4 years**</b>

\*For example only. Actual investment and savings may be **higher or lower depending on the models** you choose to install, the efficiency of the furnace you are replacing, fluctuating fuel costs and your actual installed cost. Based on average gas costs of \$0.88 per Ccf including taxes for the 12 months ending September 30, 2019.

\*\*With savings on annual operating costs of \$113 per year, the \$500 incremental investment will be paid back in 4.4 years.

Terms and conditions apply. Rebates are available to residential customers, regardless of income or annual energy usage, for replacing specified appliances with new, energy-efficient models in their homes or adding them to their new builds.
