

1. Complete the National Fuel Non-Residential Conservation Incentive Program Application, review the terms and conditions and sign the application form on page 2. New construction is eligible for this program.
2. Include the following items:
 - ☐ Copy of facility's National Fuel utility bill
 - ☐ Specification sheets for all equipment proposed for installation
 - ☐ Contractor invoice
 - ☐ W-9 (Request for Taxpayer Identification Number and Certification)
3. Complete the Project Description (Page 2).
4. Mail or scan the application and supporting documentation to:

C.J. Brown Energy, P.C.
4245 Union Road, Suite 204
Buffalo, NY 14225
Attn: NRCIP

Project Description

<input checked="" type="checkbox"/> Performance-Based	• Applications for Performance-Based Rebates (PB projects must be submitted either before or within 90 days of contracting the project.)	PB Anticipated Project Construction Start Date	<input type="text"/>
---	--	--	----------------------

Annual Gas Savings (Mcf)	Other Fuel Savings (Mcf)	Annual Cost Savings (\$)	Project Cost (\$)
<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>

Is this a fuel conversion? ☐ Yes ☐ No If yes, from what fuel type?

Please include information describing the project in detail. This information should include (but is not limited to) baseline equipment and efficiencies, operating schedules, proposed equipment and efficiencies, etc. Does this replace existing equipment? If yes, list equipment and estimated age of equipment below. Please attach additional pages if needed. Performance-based incentives are determined by multiplying \$15 times the annual gas savings in Mcf. Rebate cap of \$100,000 per program year.

Terms & Conditions

1. To be eligible for a rebate, I understand that: (a) I, or my tenant, must be a customer with an active meter serviced by National Fuel Gas Distribution Corporation ("National Fuel") in National Fuel's Western New York service territory for the installation address, and (b) the product(s) I have installed must qualify as described on the Rebate Application Form, incorporated herein by this reference, and be designed and installed to reduce the consumption of the energy distributed to me by National Fuel at the installation address. I understand I must complete an application for each installation address. For installations at multi-family dwellings, a separate application must be completed for each active meter. All uses herein of the words "install," "installation" or similar phrases shall mean complete installation such that the subject product(s) is/are fully functional at the time that the rebate application is submitted.
2. **All eligible measures must be installed by a licensed contractor or a contractor that can supply you with either a Federal ID Number, or a Certificate of Insurance or a Business Certificate. The only exception to this is an ENERGY STAR®-labeled gas clothes dryer installation.**
3. I understand the Conservation Incentive Program rebate term begins on October 1, 2025. Product purchases and installations made prior to October 1, 2025, do not qualify for a rebate with this form but may be eligible using application forms for CIP Year 17 (2024). Resale products, products leased, rebuilt, rented, received from insurance claims, won as a prize or new parts installed in existing products do not qualify. All applications are processed on a first-come, first-served basis, as received. INCOMPLETE APPLICATIONS WILL NOT BE PROCESSED. Resubmitted information/documentation is processed on a first-come, first-served basis, based on the new receipt date. This program may be modified or terminated at any time and without prior notice. In the event that the amount of a rebate changes during the course of the program, the installation date will be used to determine product eligibility and rebate amount.
4. I understand that this signed and dated Rebate Application Form, all appropriate proof(s) of purchase and other required documentation as referenced in this application must be sent to National Fuel's Processing Center to be considered eligible for a rebate. Generally, a rebate check or prepaid card for qualifying product(s) will be mailed 8-12 weeks after National Fuel receives and approves a properly completed Application Package unless an application is selected for a verification, which may add additional time. I understand that if I do not indicate a preferred payment method, the default payment is a check.
5. I will allow, if requested, a National Fuel representative or third-party inspector designated by National Fuel reasonable access to the install address to verify the product has been purchased and is installed before a rebate is paid. I understand that a rebate will not be paid if I refuse to participate in any required verification. I understand that National Fuel may contact the qualifying product vendor and/or installer, if needed, to verify purchase and/or installation and may provide my name and/or address to complete this verification.
6. I have installed a qualifying product(s) and understand the energy-efficiency level of the qualifying product(s) determines the rebate amount (as defined in the Rebate Application Form). A single gas-fired piece of equipment that provides multiple functions (e.g., heat and hot water) is only eligible for one rebate, that being the higher rebate amount of the two listed amounts. **The rebate amount cannot exceed the equipment-plus-installation price. One furnace/boiler tune-up service available per furnace/boiler, per year.**
7. I agree that the selection of qualifying product(s); selection of manufacturer, dealer, supplier and/or installer and purchase, installation and ownership/maintenance of the qualifying product(s) referenced in this application are my sole responsibility and that my manufacturer, dealer, supplier or installer of these products and measures is not an agent or representative of National Fuel. I understand that National Fuel makes no representations regarding manufacturers, dealers, contractors, materials or workmanship. I ALSO UNDERSTAND THAT NATIONAL FUEL MAKES NO WARRANTY WHETHER EXPRESS OR IMPLIED, INCLUDING, WITHOUT LIMITATION, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR ANY PARTICULAR PURPOSE, USE OR APPLICATION OF THE PRODUCTS OR MEASURES. I agree that National Fuel has no liability whatsoever concerning (1) the quality, safety and/or installation of the products or measures, including their fitness for any purpose, (2) the estimated energy savings of the products or measures, (3) the workmanship of any third parties, (4) the installation or use of the products or measures, including, but not limited to, effects on indoor pollutants or (5) any other matter with respect to the National Fuel Conservation Incentive Program. I waive any and all claims against National Fuel and its parent companies, directors, officers, employees or agents, arising out of activities conducted by or on behalf of National Fuel in connection with my application for any rebate(s) under the National Fuel Conservation Incentive Program. Without limiting the generality of the foregoing, none of the above stated parties shall be liable hereunder for any type of damages, whether direct, indirect, incidental, consequential, exemplary, reliance, punitive or special damages, including damages for loss of use regardless of the form of action, whether in contract, indemnity, warranty, strict liability or tort, including negligence of any kind.
8. I am responsible for meeting all program requirements and complying with my state/county/city governments, property owner and/or homeowner's association requirements (if any) in my area regarding local conditions, restrictions, codes, ordinances, rules and regulations concerning this installation.
9. If a tenant, I am responsible for obtaining the property owner's permission to install the product for which I am applying for a rebate. My signature on this application indicates I have obtained this permission.
10. **I understand that National Fuel is not responsible for items lost or destroyed in the mail/transit.**
11. I agree and authorize National Fuel's sharing of my customer information, as set forth in the Residential Rebate Application Form, and/or project-level information with New York State Department of Public Service Staff and NYSEERDA, including its agents or authorized representatives, consistent with NYSEERDA's New York State Public Service Commission and statutorily authorized responsibilities, including, but not limited to, supporting market development initiatives and other evaluation and measurement activities. (For clarity, the term "project-level information" includes the information based on the scope of the project, including, but not limited to, aggregated and anonymized whole building, building or subsets of the project.)
