HOW TO APPLY

1. **Complete and sign** the Rebate Application Form on Pages 3, 4, 5, 6 and 7. Be sure to read the Terms and Conditions on the last page of this form.
2. **Mail** the completed form along with a copy of a recent **National Fuel bill*** (or **third-party supplier bill with National Fuel Gas account number indicated**) and **paid receipt(s)**/proof of purchase (see Proof of Purchase Requirements below) to:

National Fuel Rebates
P.O. Box 2528
Manchester, CT 06045

*Rental property owners are not required to provide a copy of tenant's National Fuel bill.

3. Your application must be postmarked by **March 31, 2027**, to receive a rebate. This date is subject to change given certain regulatory or budgetary restrictions.

All applications are processed on a first-come, first-served basis, according to the date received. INCOMPLETE APPLICATIONS CANNOT BE PROCESSED. Resubmitted information/documentation will be processed on a first-come, first-served basis, according to the new receipt date.

4. **KEEP A COPY** of all mailed forms and required documents (including receipts) for your records.
5. Be prepared to participate in any required verification of installation(s). National Fuel may verify the energy-efficient product(s), customer eligibility and installation prior to payment of rebate.
6. If all program requirements are met, a rebate check will generally be mailed within 8-12 weeks, unless your application is selected for verification, which may take additional time.

PROOF OF PURCHASE REQUIREMENTS

All products must be installed using a licensed contractor or a contractor that can supply you with either a Federal ID (Tax) Number or a Certificate of Insurance or a Business Certificate. **All products must be purchased as new and installed prior to submitting your completed forms and other required documentation.**

Proof of Purchase for smart thermostats, standalone weatherization measures, and weatherization packages must include the following information:

Paid invoice or receipt(s) indicating the Retailer/Contractor name, business address, phone and one of the following: Federal ID (Tax) Number, Certificate of Insurance or Business Certificate. The paid invoice from the contractor should contain an itemized description of each product, including:

For HVAC equipment controls:

- a. Manufacturer and **complete model number of equipment replaced and installed.**
- b. Product installation date.

For standalone weatherization measures and packages:

- a. See page 4 and 6 for details.

REBATE PROGRAM CHECKLIST

We appreciate your participation in our WeatherWise Savings Program. In order to ensure proper processing of your rebate, please:

- ☐ Note that rebates are available for customers in National Fuel's Western New York service territory only.
- ☐ Note that new construction is ineligible for this program.
- ☐ Note that all products, **including thermostats**, must be installed using a licensed contractor or a contractor that can supply you with either a Federal ID (Tax) Number or a Certificate of Insurance or a Business Certificate.
- ☐ All applications are processed on a first-come, first-served basis, according to the date received. INCOMPLETE APPLICATIONS CANNOT BE PROCESSED. Resubmitted information/documentation will be processed on a first-come, first-served basis, according to the new receipt date.
- ☐ Include a copy of a recent National Fuel bill (or third-party supplier bill with National Fuel Gas account number indicated) and a paid receipt/proof of purchase document that lists purchase date(s), as well as manufacturer, model number and Efficiency Rating (AFUE, UEF). **See Proof of Purchase Requirements on Page 1.**
- ☐ Your application must be postmarked by **March 31, 2027**, to receive a rebate. This date is subject to change given certain regulatory or budgetary restrictions.
- ☐ **Rental property owners please note:**
 1. When you have purchased and installed a qualified conservation measure in a rental property, proof of ownership (such as a copy of a recent tax bill) must be provided. The address shown on the proof of ownership must match the install address listed on the Rebate Application Form.
 2. **Rental property owners are not required to provide tenant's gas account number.**
- ☐ Keep a copy of all submitted documents for your records.
- ☐ Please consult with your licensed contractor for any questions about the required details necessary to process this application.

Questions? Call toll-free at 1-877-285-7824.

Residential Rebate Application Form

WeatherWise Savings Program - Year 1 (Effective January 1, 2026)

Please complete and sign this form and include proof of purchase documents.

REQUIRED CUSTOMER INFORMATION

National Fuel Account # (located on NFG or third-party supplier bill)

$$\square\square\square\square\square\square\square - \square\square$$

Select one: I would prefer to receive my incentive as a mailed ☐ Check (default if no selection is made) ☐ Prepaid Debit Card

Is this for a rental property? ☐ Yes ☐ No Note: Rental property owners are not required to provide tenant's gas account number.

HEATING EQUIPMENT CONTROLS

Heating, Ventilation and Air Conditioning (HVAC) Equipment Controls

Measure	New Equipment Installed		Project Cost	Rebate Total (A x B) not to exceed Project Cost
	Quantity Installed (A)	Rebate Amount (B)		
Connected Thermostat or ENERGY STAR™ Certified Smart Thermostat ¹	_____ Unit(s)	\$200/Unit Brand/Make: _____ Model #: _____ Date Installed: _____	\$ _____	\$ _____

¹ A Connected Thermostat is a Wi-Fi communicating and analytics capable thermostat that combines the scheduling capabilities of a programmable thermostat with wireless connectivity, allowing users to remotely monitor and adjust temperature settings via a smartphone, tablet or computer. Eligible Connected Thermostats must also include additional energy savings features such as usage coaching, HVAC system diagnostics, geo-fencing and comparative information. An ENERGY STAR™ certified Smart Thermostat includes all features of a Connected Thermostat along with the ability to perform automatic adjustments in response to occupancy behavior.

HOME ENERGY EFFICIENCY UPGRADES

Required Baseline Structure Details for Home Energy Efficiency Upgrades

Building type (choose one)		☐ Single Family Detached	☐ Townhouse or Multifamily
Year building constructed _____			
Heating system type (choose one)		☐ Forced Air	☐ Radiators or Baseboard
Heating system input from equipment nameplate (Btu/hr) _____			
Heating system output from equipment nameplate (Btu/hr) _____			
Is this a Hybrid Heating System (dual fuel, electric and gas)? (choose one)		☐ Yes	☐ No
If Hybrid Heating, what is the outdoor changeover temperature? _____			
Does the building have centralized air conditioning? If so, what type? (choose one)		☐ Air Conditioner	☐ Heat Pump ☐ Not Applicable
Domestic hot water gas input from equipment nameplate (Btu/hr) _____			

Information must be provided in order to qualify for Home Energy Efficiency Upgrade rebates.

HOME ENERGY EFFICIENCY UPGRADES (CONTINUED)

HVAC and Domestic Hot Water Measure Incentives (Provide details in a supplemental table as necessary)

Measure	Incentive (A)		Total Length of Duct Insulated and Sealed (ft.) (B)	Length of Duct Insulated and Sealed in Unconditioned Space (ft.)	Duct Location ²	Duct Leakage Testing		Project Cost	Rebate Total (A x B) <i>Not to Exceed 50% of Project Cost</i>
						Pre-seal Result (%)	Post-seal Result (%)		
Duct Sealing and Insulation	\$7.25 per ft. installed								
Measure	Incentives (A)		Pipe Material	Pipe Diameter (in.)	Insulation Material	Insulation Thickness (in.)	Length of Pipe Insulated (B)	Project Cost	Rebate Total (A x B) <i>Not to Exceed 50% of Project Cost</i>
Pipe Insulation (Domestic Hot Water)	\$2.00 per ft. installed								
Pipe Insulation (Steam Home Heat)	\$2.00 per ft. installed								
Pipe Insulation (Hot Water Home Heat)	\$2.00 per ft. installed								
Measure	Incentive (A)	Number of Units Installed (B)	Equipment Type (HRV or ERV)	Max Rated CFM of Unit	Rated Wattage of Unit Fans	Total Effectiveness of Heat Exchanger	Sensible Effectiveness of Heat Exchanger	Project Cost	Rebate Total (A x B) <i>Not to Exceed 50% of Project Cost</i>
Energy and Heat Recovery Ventilator	\$750 per Unit								

² Choose: Attic, Garage, Crawl Space (Unvented & Uninsulated), Crawl Space (Unvented & Insulated Building Floor and Crawl Space Walls), Crawl Space (Unvented & Insulated Building Floor Only), Crawl Space (Vented & Uninsulated), Crawl Space (Vented & Insulated Building Floor and Crawl Space Walls), Crawl Space (Vented & Insulated Building Floor Only), Basement (Uninsulated), Basement (Insulated Walls), or Under-slab.

Standalone Weatherization Measure Incentives (Provide details on a supplemental table as necessary)

Measure	Incentive	Change in infiltration rate before and after air leakage sealing as determined by blower door testing at a negative pressure differential of 50 Pa or 0.2" W.C., (CFM)			Number of Stories	Project Cost	Rebate Amount <i>Not to Exceed 50% of Project Cost</i>
Air Leakage Sealing (With Blower Door Test)	\$500						
Measure	Incentive	Area of Attic Access (sq. ft.)	Perimeter of Attic Access (ft.)	R-value of Installed Insulation	R-value of Existing Insulation	Project Cost	Rebate Amount <i>Not to Exceed 50% of Project Cost</i>
Attic Access Insulation	\$100						
Measure	Incentives (A)	Area Insulated (sq. ft.) (B)	R-value of installed insulation	Existing Insulation Removed? (Yes or N/A)	R-value of Existing Insulation, if Removed	Project Cost	Rebate Total (A x B) <i>Not to Exceed 50% of Project Cost or \$500, whichever is Less</i>
Insulation - Exterior Wall	\$2.00 per sq. ft. installed ³						
Insulation - Ceilings Under Unconditioned Space	\$2.00 per sq. ft. installed ⁴						

³ Insulation must be at least R-15 value for 2"x4" construction and R-21 value for 2"x6" construction.

⁴ Insulation must be at least R-38 value.

RESIDENTIAL WEATHERIZATION

In order to qualify for a weatherization incentive, at a minimum, the home must have insulation installed in the attic over all livable space and insulation installed at the rim or band joists in the basement or crawl space. Additionally, if the exterior walls and floors over the basement or crawl space are insulated, you are eligible for an enhanced incentive. **New construction is not eligible for this program. For more information, please review term #7 in terms and conditions.**

In order for your application to be processed, in addition to the home and contractor information gathered on page 3, **the following information must be provided on the paid invoice for any weatherization efforts.**

- | | | |
|--|--|---|
| 1. Number of weatherization efforts installed | 5. In-home location of weatherization efforts (e.g., attic, crawl space, basement, exterior walls) | 10. Building age |
| 2. Description of weatherization efforts performed | 6. Type of insulation installed | 11. Number of floors with conditioned space |
| 3. Description of surface where insulation installed (e.g., wall, ceiling, rim joist, floor) | 7. Square footage of insulation installed (ft ²) | 12. Square footage of area of conditioned space (sq. ft.) |
| 4. Description of primary heating equipment | 8. R-value of insulation installed | 13. Area of insulated surfaces (sq. ft.) |
| | 9. R-value of rim and/or band joist | 14. Total project cost |

Final Rebate Application Amount and Formal Certification

I CERTIFY THAT THE INFORMATION I HAVE PROVIDED IS TRUE AND CORRECT AND THE MEASURES AND/OR INSTALLATION(S) FOR WHICH I AM REQUESTING A REBATE MEET THE REQUIREMENTS IN THIS APPLICATION. **I HAVE READ AND UNDERSTAND THE TERMS AND CONDITIONS AS STATED ON THE LAST PAGE OF THIS FORM.**

SIGN HERE Applicant Signature: _____

Name (please print): _____

Date: _____

TERMS & CONDITIONS

1. To be eligible for a rebate, I understand that: (a) I, or my tenant, must be a customer with an active meter serviced by National Fuel Gas Distribution Corporation ("National Fuel") in National Fuel's Western New York service territory for the installation address, and (b) the product(s) I have installed must qualify as described on the Rebate Application Form, incorporated herein by this reference, and be designed and installed to reduce the consumption of the energy distributed to me by National Fuel at the installation address. I understand I must complete an application for each installation address. For installations at multi-family dwellings, a separate application must be completed for each active meter. All uses herein of the words "install," "installation" or similar phrases shall mean complete installation such that the subject product(s) is/are fully functional at the time that the rebate application is submitted.
2. **All eligible measures must be installed by a licensed contractor, or a contractor that can supply you with either a Federal ID Number, or Certificate of Insurance, or Business Certificate.**
3. I understand the WeatherWise Savings Program rebate term begins on January 1, 2026. Product purchases and installations made prior to January 1, 2026, do not qualify for a rebate with this form. Resale products; products leased, rebuilt, rented, received from insurance claims; won as a prize or new parts installed in existing products do not qualify. All applications are processed on a first-come, first-served basis, as received. **INCOMPLETE APPLICATIONS WILL NOT BE PROCESSED.** Resubmitted information/documentation is processed on a first-come, first-served basis, according to the new receipt date. **This program may be modified or terminated at any time and without prior notice.** In the event that the amount of a rebate changes during the course of the program, the installation date will be used to determine product eligibility and rebate amount.
4. I understand that this signed and dated Rebate Application Form, all appropriate proof(s) of purchase, completed work, and other required documentation as referenced in this application must be sent to National Fuel's Processing Center to be considered eligible for a rebate. Generally, a rebate check or prepaid debit card for qualifying product(s) will be mailed 8-12 weeks after National Fuel receives and approves a properly completed Application Package unless an application is selected for a verification, which may add additional time. I understand that if I do not indicate a preferred payment method, the default payment is a check.
5. I will allow, if requested, a National Fuel representative or third-party inspector designated by National Fuel reasonable access to the install address to verify the product has been purchased and is installed, or weatherization work has been completed, before a rebate is paid. I understand that a rebate will not be paid if I refuse to participate in any required verification. I understand that National Fuel may contact the qualifying product vendor and/or installer, if needed, to verify purchase and/or verify purchase and installation, or weatherization work has been completed, and may provide my name and/or address to complete this verification.
6. I understand the difference between the "Good" and "Better" weatherization packages that are being offered by National Fuel. The installation details are filled out in their entirety, and are true and correct. The product(s) for which I am requesting a rebate all meet the requirements in this application. **New construction is not eligible for a weatherization rebate.** For clarity, weatherization measures increase the energy efficiency of a building without the replacement of space conditioning equipment and include but are not limited to blower door testing and leakage remediation, air sealing, insulation, and replacement of window and doors with their energy-efficiency equivalents.
7. I acknowledge that for the "Good" Package, National Fuel requires, at a minimum, either 100% of the residence's attic or rim joists be fully insulated and sealed by the contractor. Should either the attic space or rim joists not receive 100% full weatherization, the "Good" weatherization rebate will be reduced by 25%. If any measure covers less than 50% of the residence's total value, then the project will not be eligible for this incentive. Substitution of measures is prohibited. For the "Better" package, all requirements associated with the good package must be completed to qualify for this rebate. In addition, 100% of exterior wall insulation and 100% of floor over basement or crawl space insulation must be completed to receive the rebate. Partial installation of "Better" Package measures will disqualify homeowner from receiving this enhanced rebate. Incentives for "Good" or "Better" packages are limited to the identified incentive amount or 50% of the project costs, whichever is less.
8. I agree that the selection of qualifying product(s); selection of manufacturer, dealer, supplier and/or installer and purchase, installation and ownership/maintenance of the qualifying product(s) referenced in this application are my sole responsibility and that my manufacturer, dealer, supplier or installer of these products and measures is not an agent or representative of National Fuel. I understand that National Fuel makes no representations regarding manufacturers, dealers, contractors, materials or workmanship. I ALSO UNDERSTAND THAT NATIONAL FUEL MAKES NO WARRANTY WHETHER EXPRESS OR IMPLIED, INCLUDING, WITHOUT LIMITATION, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR ANY PARTICULAR PURPOSE, USE OR APPLICATION OF THE PRODUCTS OR MEASURES. I agree that National Fuel has no liability whatsoever concerning (1) the quality, safety and/or installation of the products or measures, including their fitness for any purpose, (2) the estimated energy savings of the products or measures, (3) the workmanship of any third parties, (4) the installation or use of the products or measures, including, but not limited to, effects on indoor pollutants or (5) any other matter with respect to the National Fuel WeatherWise Savings Program. I waive any and all claims against National Fuel and its parent companies, directors, officers, employees or agents, arising out of activities conducted by or on behalf of National Fuel in connection with my application for any rebate(s) under the National Fuel WeatherWise Savings Program. Without limiting the generality of the foregoing, none of the above stated parties shall be liable hereunder for any type of damages, whether direct, indirect, incidental, consequential, exemplary, reliance, punitive or special damages, including damages for loss of use regardless of the form of action, whether in contract, indemnity, warranty, strict liability or tort, including negligence of any kind.
9. I am responsible for meeting all program requirements and complying with my state/county/city governments, property owner and/or homeowner's association requirements (if any) in my area regarding local conditions, restrictions, codes, ordinances, rules and regulations concerning this installation.
10. If a tenant, I am responsible for obtaining the property owner's permission to install the product for which I am applying for a rebate. My signature on this application indicates I have obtained this permission.
11. **I understand that National Fuel is not responsible for items lost or destroyed in the mail/transit.**
12. I agree and authorize National Fuel's sharing of my customer information, as set forth in the Residential Rebate Application Form, and/or project-level information, with New York State Department of Public Service Staff and NYSERDA, including its agents or authorized representatives, consistent with NYSERDA's New York State Public Service Commission and statutorily authorized responsibilities, including, but not limited to, supporting market development initiatives and other evaluation and measurement activities. (For clarity, the term "project-level information" includes the information based on the scope of the project, including, but not limited to, aggregated and anonymized whole building, building or subsets of the project.)
13. In order to be eligible to receive a rebate for weatherization measures, I understand that: (a) I, or my tenant, must utilize natural gas delivered by National Fuel for space heating needs and that (b) I may not apply for or receive multiple incentives for the same weatherization measures from other System Benefits Charge-funded New York State electric utilities or NYSERDA.
